

Cable Power SATA HDD with metal clip > 4pin male– angled

Description

This power cable enables you to convert the interface of the common ATX power supplies into the SATA format for the power supply of SATA drives. The angled SATA connector leads the cable downwards from the SATA HDD so that you can still connect your drive in spite of space problems. The metal clip on the SATA interface provides additional stability.

Ref. 60121
EAN 4043619601219
