Standalone Mode-New Level of Hybrid Meeting

Video conferencing is more important than ever these days. It has become an indispensable way of efficient work and interpersonal communication. Kandao Meeting S has a standalone mode, allowing you to set up a meeting by one machine. No more external devices or complex setups, Kandao Meeting S leads a new era of video conferencing.

Focus on Things that Matter

With advanced Kandao Meeting AI 3.0 algorithm, Kandao Meeting S can intelligently detect and track the active speaker. Offer flexible discussion modes for different meeting scenarios.

Ultra Wide

Single Person

Two Attendees

Multi Attendees

Ultra Wide

Never left out any detail in the meeting room.

Single Person

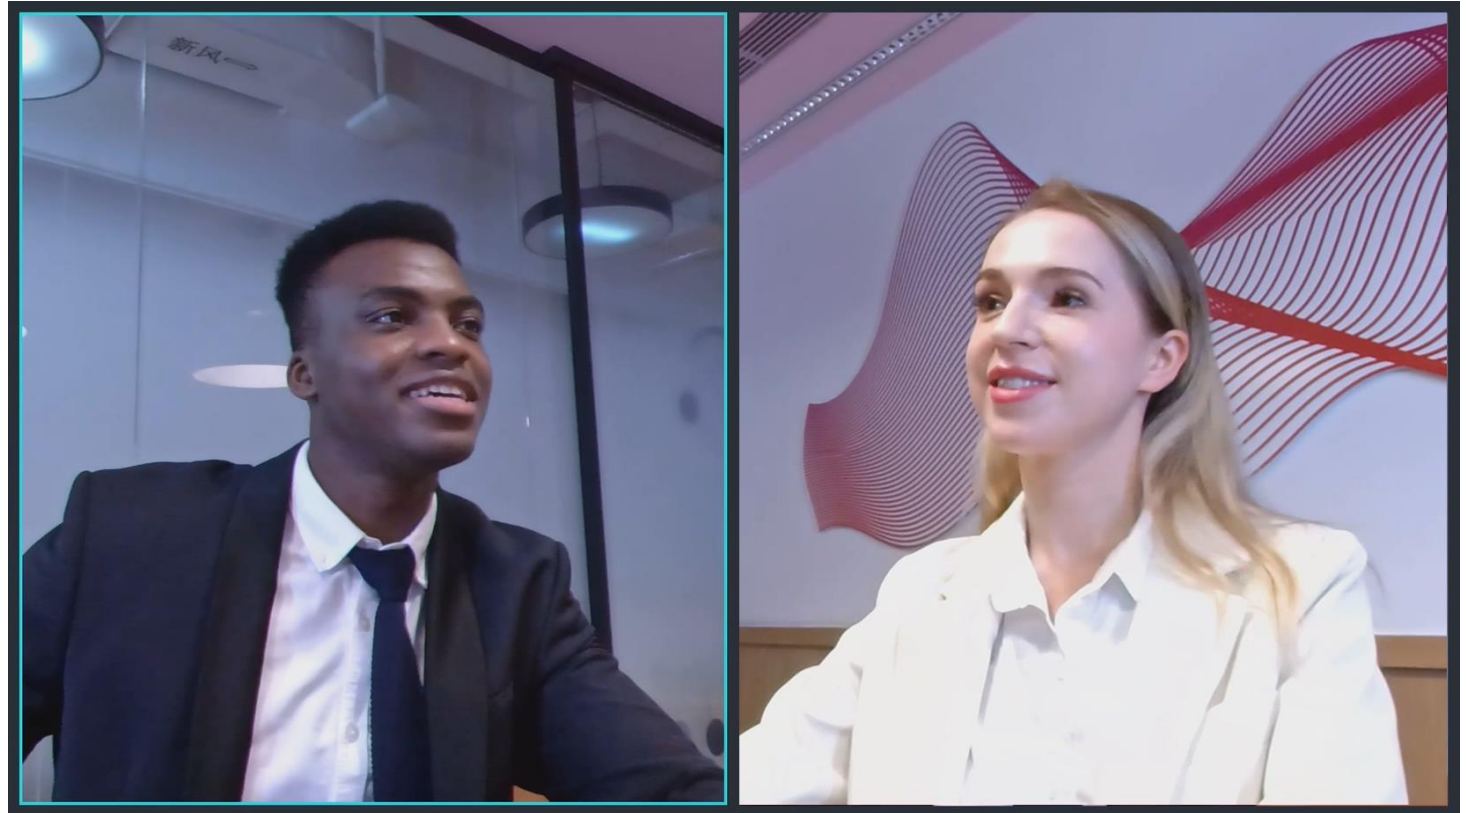

Only highlight the speaking person during presentation.

Two Attendees

Display two attendees in two rectangles, while highlighting the active speaker.

Multi Attendees

Display five attendees, while the active speaker will be highlighted and displayed in the main rectangle.

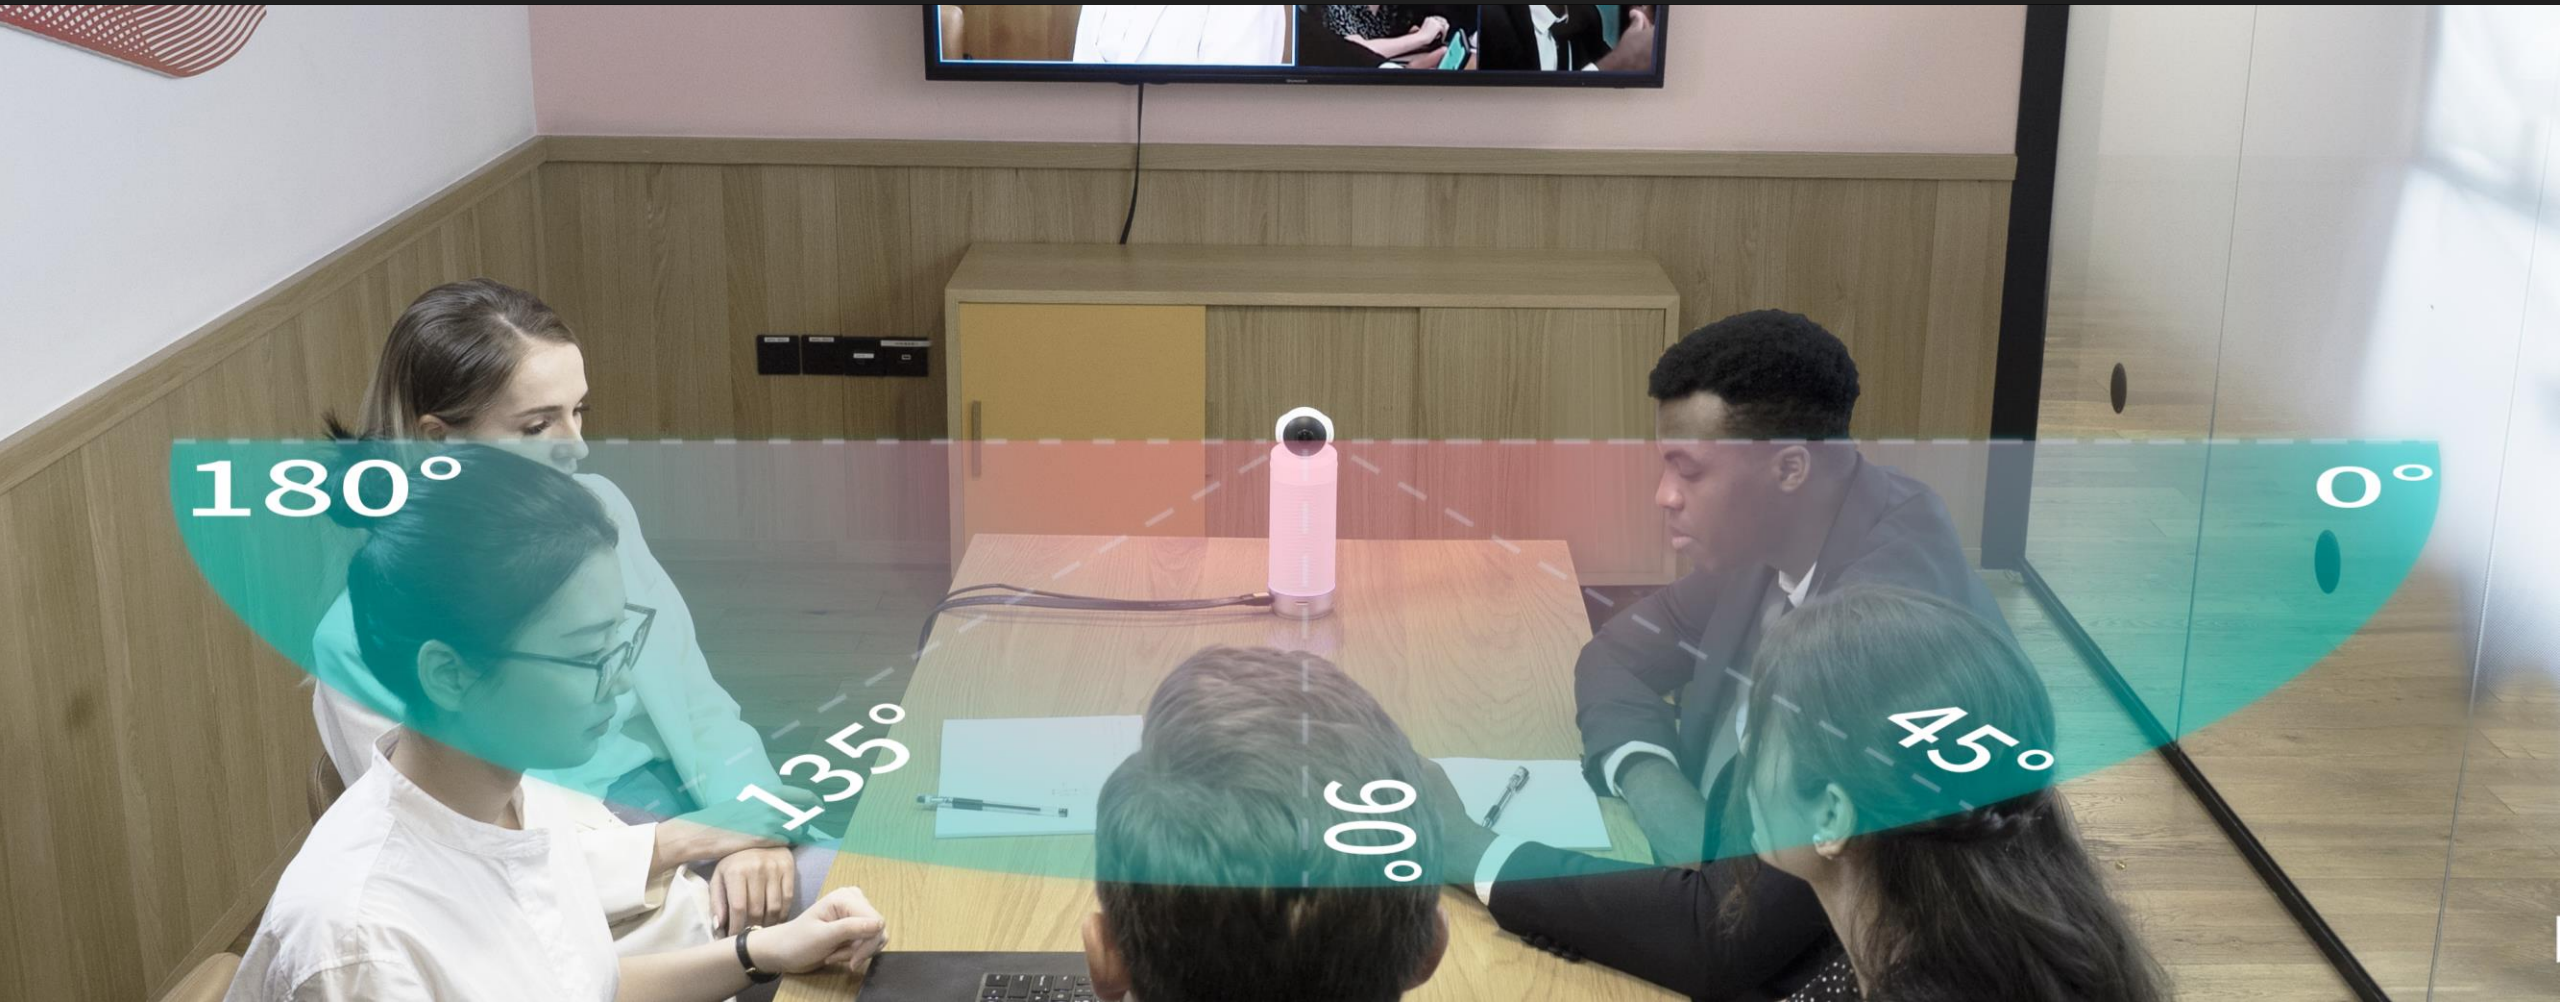

View Lock and Zoom

Provides view-lock and zoom function for best collaboration.

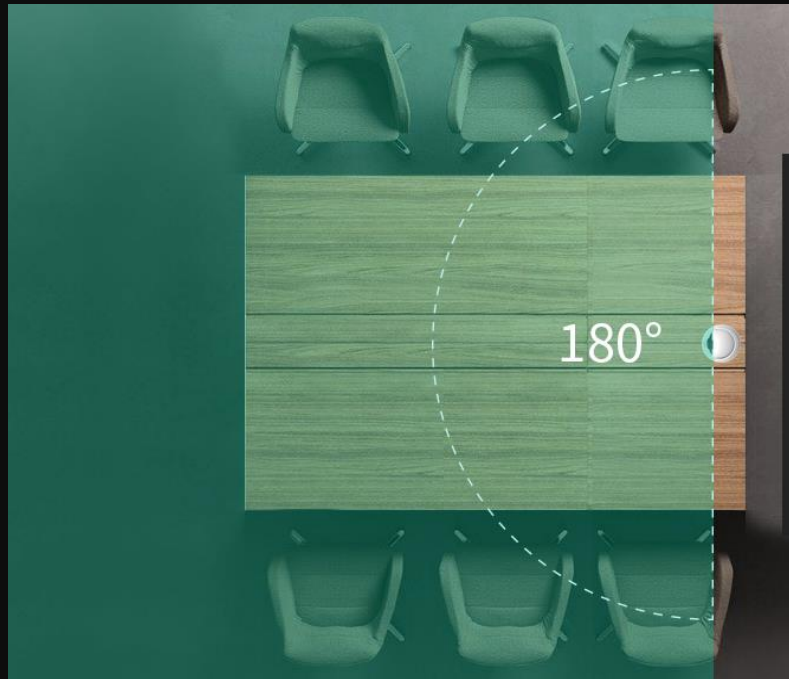

180° Ultra-Wide View, Cover the Whole Room

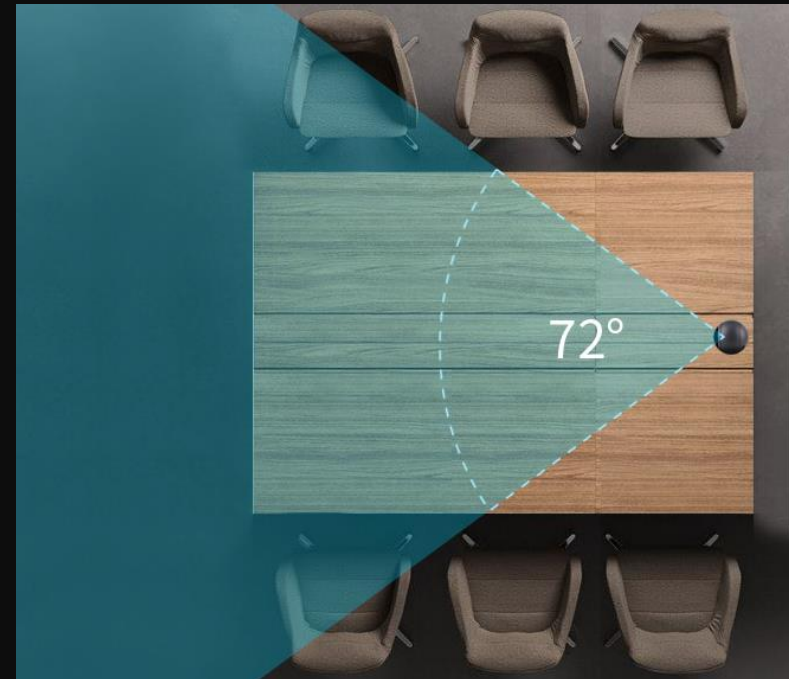

Kandao Meeting S is equipped with a 195° ultra-wide camera, covering 180° view. Participants don't need to squeeze together, no one will be left out. Just enjoy a more immersive and natural video conference. Light and Color Optimization shows the best of you in different meeting spaces.

Conventional cameras are difficult to capture every part of the room or frame all participants in real-time.

Kandao Meeting S

Conventional Camera

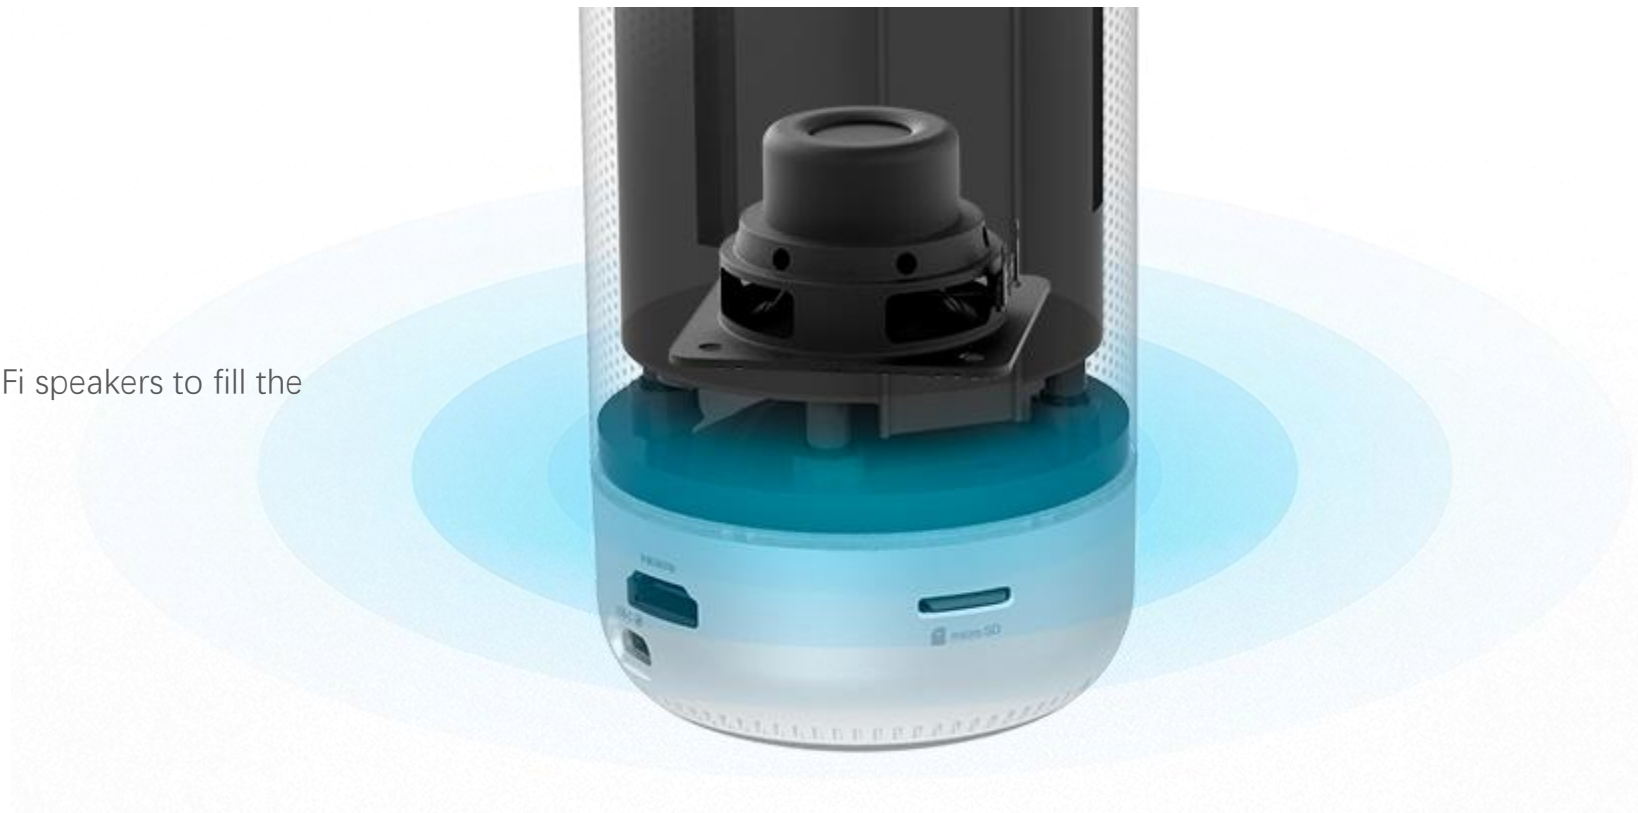

Full-Duplex Audio System Output Clearer, Sound Better

Based on the full-duplex design, everyone can contribute to the conversation in real time. Eight professional-grade microphones and intelligent algorithms achieve accurate beamforming, noise reduction and echo cancellation.

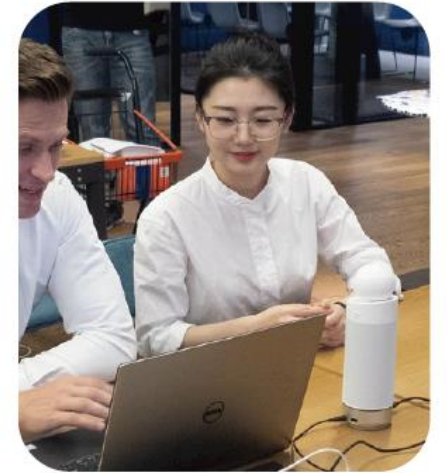

Hi-Fi Speaker

Kandao Meeting S has an array of powerful Hi-Fi speakers to fill the meeting room with premium and clear sound.

Meeting in Anytime, Anywhere, Any Way You Like

Kandao Meeting S is stylish and portable. It's easy to set up no matter at home, on a business trip or in the office.
