

WLAN-Box 2: the best WLAN reception for the home – now with Wi-Fi 6

The WLAN-Box 2 is a 3-in-1 device that supports the latest WLAN standard (Wi-Fi 6), providing noticeably higher WLAN speeds of up to 4.8 Gbit/s. It connects the TV-Box and Internet-Box, WLAN repeater or WLAN Access Point and extends the WLAN range. Your devices are then automatically connected to the best WLAN network.

Compatibility

- > Internet-Box 3, Internet-Box 2, Internet-Box standard and Internet-Box plus

Features

- > Automatically connects devices to the best WLAN
- > Wi-Fi 6 standard (802.11a/b/g/n/ac/ax)
- > Maximum WLAN speed 4.8 Gbit/s (5 GHz)
- > Maximum WLAN speed 600 Mbit/s (2.4 GHz)
- > 3 x 1 Gbit/s Ethernet ports
- > Can be extended to up to 4 WLAN-Boxes*
- > Home app with additional functions
- > Size: 118 x 118 x 47 mm
- > Power consumption 6.5 W

Connect Swisscom Box/TV-Box

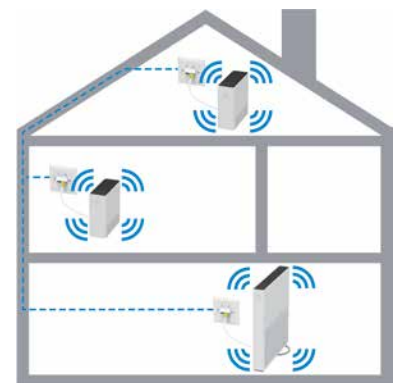

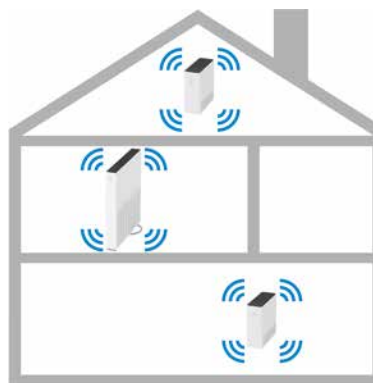

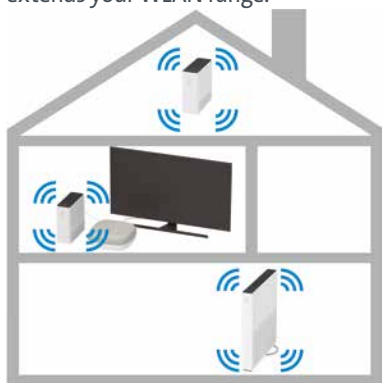

The WLAN-Box 2 wirelessly connects the Swisscom Box/TV-Box to the Internet-Box*. The Swisscom Box/TV-Box is connected to the WLAN-Box 2 by cable. The WLAN-Box 2 also extends your WLAN range.

Extending your WLAN network

The WLAN-Box 2 serves as a repeater. Set it up between Internet-Box and a WLAN-free area to optimally extend WLAN reception.

WLAN Access Point

The WLAN-Box 2 extends the range of your existing WLAN, for instance when the Internet-Box is installed in the distribution box and WLAN range is inadequate.

* Please note: with the Internet-Box plus and Internet-Box standard only one TV-Box can be connected to the WLAN-Box 2.
